

Team A40 Reviewed by "Tio"

Comments 0
None in methods

- Style 4
 - legible code
 - weird indenting
 - Instance variables don't have - like convention

- Robustness 3
 - functional
 - no error handling
 - Does not return null with an empty queue
 - Removal methods do not take into account the case with one element
 - last is not set to null on removeFirst(), and first is not set to null on removeLast()
 - Add last should not set previous of new node to first

- README.md 4
 - no explanation for method choices
